Reading

Intent	Implementation	Impact
<p>At Spalding St Paul's School reading is a top priority and is a key driver for our curriculum. It is our intention to ensure that by the end of their primary education, all pupils are able to read fluently, and with confidence, in any subject in their forthcoming secondary education. We therefore intend to encourage all pupils to read widely across both fiction and non-fiction to:</p> <ul style="list-style-type: none"> - Develop knowledge of themselves and the world in which they live; - to establish an appreciation and love of reading; - to gain knowledge across the curriculum, and - to develop their comprehension skills. <p>We are committed to providing vocabulary rich reading material across the curriculum.</p>	<p>The systematic teaching of phonics has a high priority throughout Foundation Stage and Key Stage 1. At Spalding St Paul's School, we use a synthetic phonics programme called 'Read Write Inc' produced by Ruth Miskin. Our staff teach learners the relationship between sounds and the written spelling patterns, or graphemes, which represent them. All children in Reception, KS1 and, where necessary, KS2 have daily phonics sessions in small ability groups where they participate in speaking, listening, spelling and reading activities that are matched to their current needs. The teachers draw upon observations and continuous assessment to ensure children are stretched and challenged and to identify children who may need additional support. Timely intervention is planned for those children who are working below expected levels as soon as their needs are identified.</p> <p>Additional skills and opportunities are also needed for children to achieve the goal of being a well-rounded reader, namely comprehension. In KS1 and KS2 reading is developed during guided reading, using high quality texts and focused skill teaching. In whole class guided reading sessions, children develop their key reading skills of decoding, Vocabulary, Inference, Prediction, Explanation, Retrieval and Summarising (VIPERS). Children also continue to develop their reading fluency skills, building upon their phonics knowledge and skills.</p> <p>All classes are exposed to a daily class reader, for pleasure, to excite and engage the children, and to expose them to new and varied vocabulary. All books shared with children are age appropriate and matched to the level of the class/individual.</p> <p>Reading at home is encouraged and promoted. Children in EYFS and KS1 working on the Read Write Inc. programme take home a 'book bag book' matched directly to their current phonics level; they are also encouraged to choose an additional book to share with their family at home. Following this, children work through our school reading scheme - Accelerated Reader. These are levelled books which match the child's current reading ability. Once children finish a book they are able to do a quiz to assess their comprehension. We expect family members at home to read these books with their child daily and make comments in their child's reading record.</p>	<p>Through the teaching of systematic phonics, our aim is for children to become fluent and confident word readers by the end of KS1. As a Year 6 reader, transitioning into secondary school, we aspire that children are fluent, confident and able readers, who can access a range of texts for pleasure and enjoyment, as well as use their reading skills to unlock learning and all areas of the curriculum. We firmly believe that reading is the key to all learning and so the impact of our reading curriculum goes beyond the results of the statutory assessments.</p>

Breadth of study:

Reading:

The programmes of study for reading at key stages 1 and 2 consist of 2 dimensions:

- word reading
- comprehension (both listening and reading)

It is essential that teaching focuses on developing pupils' competence in both dimensions; different kinds of teaching are needed for each.

Skilled word reading involves both the speedy working out of the pronunciation of unfamiliar printed words (decoding) and the speedy recognition of familiar printed words. Underpinning both is the understanding that the letters on the page represent the sounds in spoken words. This is why phonics should be emphasised in the early teaching of reading to beginners (ie unskilled readers) when they start school.

Good comprehension draws from linguistic knowledge (in particular of vocabulary and grammar) and on knowledge of the world. Comprehension skills develop through pupils' experience of high-quality discussion with the teacher, as well as from reading and discussing a range of stories, poems and non-fiction. All pupils must be encouraged to read widely across both fiction and non-fiction to develop their knowledge of themselves and the world they live in, to establish an appreciation and love of reading, and to gain knowledge across the curriculum. Reading widely and often increases pupils' vocabulary because they encounter words they would rarely hear or use in everyday speech. Reading also feeds pupils' imagination and opens up a treasure house of wonder and joy for curious young minds.

It is essential that, by the end of their primary education, all pupils are able to read fluently, and with confidence, in any subject in their forthcoming secondary education.

Writing:

The programmes of study for writing at key stages 1 and 2 are constructed similarly to those for reading:

- transcription (spelling and handwriting)
- composition (articulating ideas and structuring them in speech and writing)

It is essential that teaching develops pupils' competence in these 2 dimensions. In addition, pupils should be taught how to plan, revise and evaluate their writing. These aspects of writing have been incorporated into the programmes of study for composition.

Writing down ideas fluently depends on effective transcription: that is, on spelling quickly and accurately through knowing the relationship between sounds and letters (phonics) and understanding the morphology (word structure) and orthography (spelling structure) of words. Effective composition involves articulating and communicating ideas, and then organising them coherently for a reader. This requires clarity, awareness of the audience, purpose and context, and an increasingly wide knowledge of vocabulary and grammar. Writing also depends on fluent, legible and, eventually, speedy handwriting.

Spelling, vocabulary, grammar, punctuation and glossary

Opportunities for teachers to enhance pupils' vocabulary arise naturally from their reading and writing. As vocabulary increases, teachers should show pupils how to understand the relationships between words, how to understand nuances in meaning, and how to develop their understanding of, and ability to use, figurative language. They should also teach pupils how to work out and clarify the meanings of unknown words and words with more than 1 meaning. References to developing pupils' vocabulary are also included in the appendices.

Pupils should be taught to control their speaking and writing consciously and to use Standard English. They should be taught to use the elements of spelling, grammar, punctuation and 'language about language' listed. This is not intended to constrain or restrict teachers' creativity, but simply to provide the structure on which they can construct exciting lessons. A non-statutory glossary is provided for teachers.

Throughout the programmes of study, teachers should teach pupils the vocabulary they need to discuss their reading, writing and spoken language. It is important that pupils learn the correct grammatical terms in English and that these terms are integrated within teaching
